**FOR RETAIL SALE TO AND USE ONLY BY CERTIFIED APPLICATORS, OR PERSONS UNDER THEIR DIRECT SUPERVISION, AND ONLY FOR THOSE USES COVERED BY THE CERTIFIED APPLICATOR'S CERTIFICATION.**

**INTRA**

## **Section 18 Emergency Exemption**

**TO CONTROL RICE STINK BUG IN RICE IN THE STATE OF MISSISSIPPI**

**EFFECTIVE DATE: July 14, 2023**  
**EXPIRATION DATE: October 15, 2023**

**Endigo® ZCX**  
**EPA Reg. No. 100-1458**

**EPA File Number: 23MS01**

**KEEP OUT OF REACH OF CHILDREN.**

**FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.**

---

### **DIRECTIONS FOR USE**

---

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA-registered Endigo ZCX label (EPA Reg. No. 100-1458).

This label must be in the possession of the user at the time of application.

Any adverse effects resulting from the use of Endigo ZCX under this exemption must be immediately reported to the Mississippi Department of Agriculture.

---

**CROP USE DIRECTIONS**

---

<b>Crop</b>	<b>Pest</b>	<b>Rate of Endigo ZCX per Acre per Application</b>	<b>Rate of Active Ingredient per Acre per Application</b>
<b>Rice</b>	Rice Stink Bug	4.5 fl oz  to  6.0 fl oz	0.063 lb ai thiamethoxam + 0.03 lb ai lambda-cyhalothrin  to  0.084 lb ai thiamethoxam + 0.04 lb ai lambda-cyhalothrin

**Use Restrictions:**

- To reduce risks to bees due to spray drift, the area within 100 feet of the edge of the field (paddy) must be kept free of flowering weeds.
- **Application Timing:** Apply as required by scouting. Base timing of applications upon insect populations reaching locally determined economic thresholds.
- **Application Rate:** One application may be made per year at a rate of 4.5 to 6.0 fl oz per acre.
- **Maximum Allowed:** Do not exceed a total of 6.0 fl. oz. of Endigo ZCX (0.084 lb of thiamethoxam and 0.04 lb of lambda-cyhalothrin) per acre per year. Do not exceed a total of 0.12 lb a.i. of **any** lambda-cyhalothrin-containing products per acre per year.
- **Pre-Harvest Interval (PHI):** 21 days
- **Water Volume:** Apply by ground or air equipment using sufficient water volume to ensure thorough coverage of foliage. **Do not** use less than 2 GPA for aerial applications. **Do not** apply as an ultra-low volume (ULV) spray. Adding an emulsified crop oil (e.g. 1 pt. per acre) when lower aerial application volumes are used is recommended to help improve coverage, reduce evaporation, and improve efficacy.
- **Flood Water:** Do not release flood water within 7 days of an application.
- **Aquaculture:** Do not use treated rice fields for the aquaculture of edible fish and crustacea.
