

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying. Refer to the product label for General Use Precautions, Mixing, and Application instructions.

Application Rates, Application Timing, and Restrictions

Rice

Pests	Application Rate (fl oz/acre)	Application Timing	Restrictions
Fall armyworm	4 – 8 (0.06 – 0.12 lb ai/acre)	<p>Begin applications when first signs of feeding damage appear or when threshold levels of feeding damage occur.</p> <p>Use a higher rate in the rate range for heavier infestations and under conditions in which thorough coverage is more difficult.</p>	<ul style="list-style-type: none"> • Preharvest Interval: Do not apply within 14 days of harvest. • Do not apply more than a total of 16 fl oz of Intrepid 2F (0.25 lb ai) per acre per year. • Do not make more than two applications per year. • Hold treated water for at least 7 days after treatment. • Minimum Re-treatment Interval: 10 days.

Ground Application: Apply in a minimum of 5 gpa by conventional ground equipment. Use a spray volume that assures uniform coverage of the infested portions of the treated crop. Calibrate equipment to the desired spray volume.

Aerial Application: Apply in a minimum of 5 gpa. Use a higher carrier volume for heavy infestations and in situations where thorough coverage is difficult to achieve.

Spray Adjuvants

The addition of agricultural adjuvants to sprays of Intrepid 2F may improve initial spray deposits, redistribution and weatherability. Select adjuvants that are recommended and registered for your specific use pattern and follow their use directions. When an adjuvant is to be used with this product, Corteva Agriscience recommends the use of a Chemical Producers and Distributors Association certified adjuvant. Always add adjuvants last in the mixing process.

Note: Drift and runoff from applications of this product may be hazardous to sensitive aquatic invertebrates in water bodies adjacent to the treatment area. Refer to the Environmental Hazards section of the product label attached to the product container for required protective measures.

Endangered Species

It is a Federal offense to use any pesticide in a manner that results in the death of an endangered species. Use of this product may pose a hazard to endangered or threatened species. When using this product, you must follow the measures contained in the Endangered Species Protection Bulletin for the county in which you are applying the product. To obtain Bulletins, no more than 6 months before using this product, consult <http://www.epa.gov/espp/>. You must use the Bulletin valid for the month in which you will apply the product.

Effective August 1, 2025, and is effective until a decision is made on ADA's request for specific emergency exemption under FIFRA Section 18.
